

Delta Dental PPOSM

SmileWay[®] Wellness Benefits

EXPANDED COVERAGE OPTION

The health of your patients' teeth and gums is part of a bigger picture: their overall wellness. Gum disease is associated with a number of systemic conditions, and people with certain chronic conditions may benefit from additional periodontal cleanings. That's why large group PPO¹ plan purchasers can choose expanded coverage for their enrollees who have been diagnosed with diabetes, heart disease, HIV/AIDS, rheumatoid arthritis or stroke.

Eligible patients must self-enroll through their online Delta Dental account. When you review patient benefits online, you'll see these notations:

- **SW-P** — This means that the dental plan includes SmileWay Wellness benefits.
- **SW** — This means that the patient has enrolled in SmileWay Wellness benefits.

If the plan includes SmileWay Wellness benefits (SW-P) and the patient is eligible but has not enrolled, please encourage the patient to do so.

SmileWay Wellness benefits include 100% coverage for these services:²

- One periodontal scaling and root planing procedure per quadrant (D4341 or D4342) each calendar or contract year, and
- Four of the following (any combination) each calendar or contract year:
 - Prophylaxis (D1110 or D1120)
 - Periodontal maintenance (D4910)
 - Scaling in presence of moderate or severe gingival inflammation (D4346)

BENEFITS INFORMATION

You get up-to-date eligibility information and benefits details with Provider Tools. You can also submit free, real-time claims and pre-treatment estimates, review treatment history, check claim status and more. Simply log in to (or register for) your online account today at deltadentalins.com.

¹ In Texas, Delta Dental Insurance Company provides SmileWay Enhanced Benefits and Dental Provider Organization (DPO) plans.

² Benefits are subject to the patient's annual maximum, deductible and periodontal benefit provisions, if applicable, and Delta Dental's periodontal processing policies.
